

雄横 acjwhli3q5, 安装 ncode, 挂载到 workbench 平台

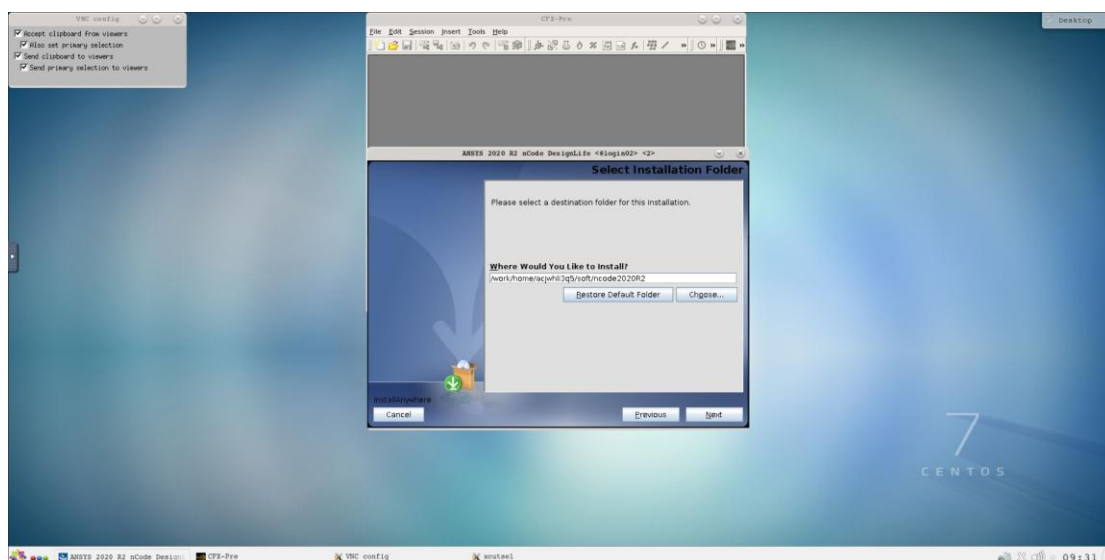

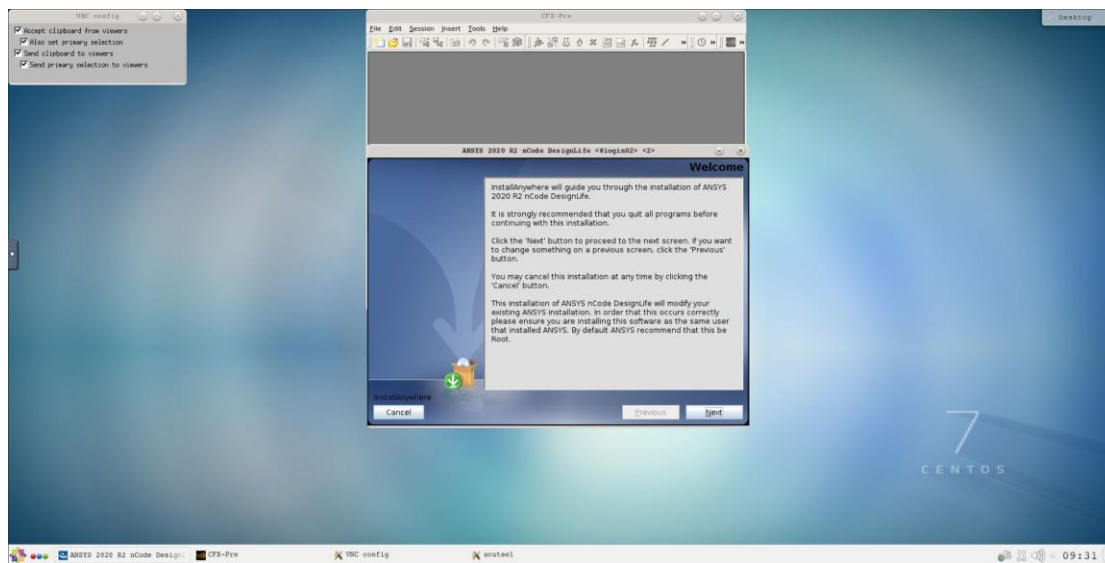

1、cd

/work/home/acjwhli3q5/ANSYS2020R1R2nCodeDesignLifeWin-Linux/Ansys.2020R2.nCode.DesignLife-SSQ/Linux64/ncode2020R2

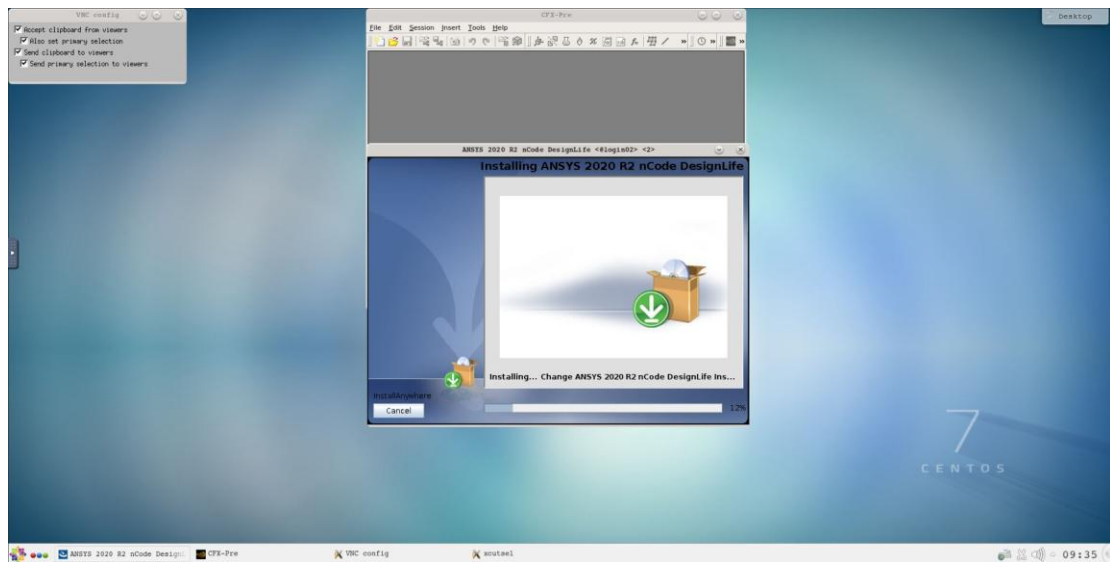

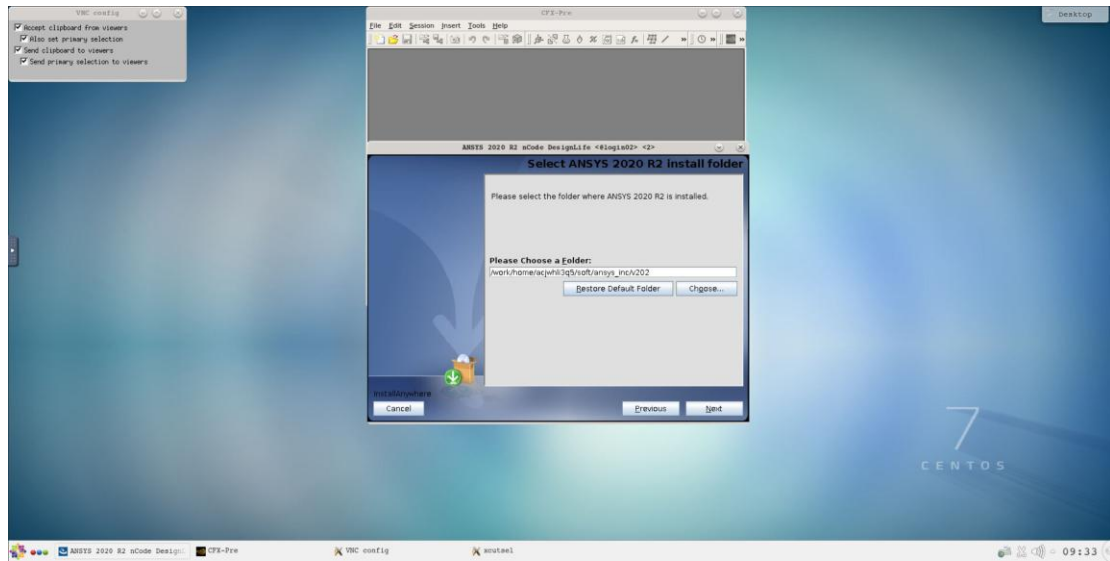

```
[acjwhli3q5@login02 ncode2020R2]$ pwd
/work/home/acjwhli3q5/ANSYS2020R1R2nCodeDesignLifeWin-Linux/Ansys.2020R2.nCode.DesignLife-SSQ/Linux64/ncode2020R2
[acjwhli3q5@login02 ncode2020R2]$ ll
total 13
drwxrwxr-x 6 acjwhli3q5 acjwhli3q5 4096 Apr 23 2020 extras
drwxrwxr-x 2 acjwhli3q5 acjwhli3q5 4096 Oct 1 2020 info
drwxrwxr-x 5 acjwhli3q5 acjwhli3q5 4096 Apr 23 2020 Linux
-rwxrwxr-x 1 acjwhli3q5 acjwhli3q5 80 Dec 15 2010 setup
-rwxrwxr-x 1 acjwhli3q5 acjwhli3q5 91 Dec 15 2010 setup-console
[acjwhli3q5@login02 ncode2020R2]$
```

2、export DISPLAY=vvnc01:4

./setup

这里选择一下 ansys 的路径, 需要与 ansys-workbench 联用

3、无需破解，直接启动 workbench，会发现已经关联上了

```
[acjwhli3q5@login02 ansys_inc]$ cd v202/Framework/bin/Linux64/  
[acjwhli3q5@login02 Linux64]$ ./runwb2  
Got a bad hardware address length for an AF_PACKET 20 8
```
